THE TWO SIDES OF NYMUE

WATCH HERE

Nymue is not your average female fronted band. They combine classical operatic vocals with hard hitting extreme vocals. Their music has a wide dynamic range; from one piano and vocals to complete orchestra, choir, vocals and band.

Because of this range they can tell a story like no other!

DEBUT ALBUM

Their first album "Born From Dark Waters" tells the story of the life of the witch Morgana. A story about prejudices, love, dark magick, family and inner strength.

A concept album with guest appearances of Sascha van der Meer (Solarcycles), Jan Willem Ketelaers (Magoria, Ayreon, Knight Area), Jane Goulding (Plan Nine, Livin' Blues) & Sjoerd-Klaas Steegstra (Baldrs Draumar, Sjoerd ensa).

The album will be released on the 9th of October.

DEMO VERSION

In 2024 they recorded a demo version of one of the songs of their upcoming album.

It's one of the more gentle songs of the album and asks the question about the choices Morgana made that distanced her from her loved ones.

100% NYMUE

In 2024 Nymue successfully finished the crowdfunding for their debut album with a whopping €7,200, showing the strong support behind the project.

They create everything themselves: writing and orchestrating the music, recording, mixing, and mastering the tracks, as well as filming and editing their own videos. This hands-on approach gives Nymue full creative control and a clear, consistent artistic style.
